

Bonding technologies for sealing profiles

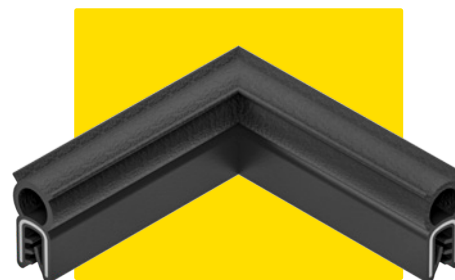

Glueing [G]

- joining of profiles in the shape of frames or o-rings
- an economical method of joining profiles while maintaining the required strength and durability of the bond

Film vulcanization [V]

- strengthening of profile ends by film vulcanisation
- the whole process ensures a durable and resistant bond

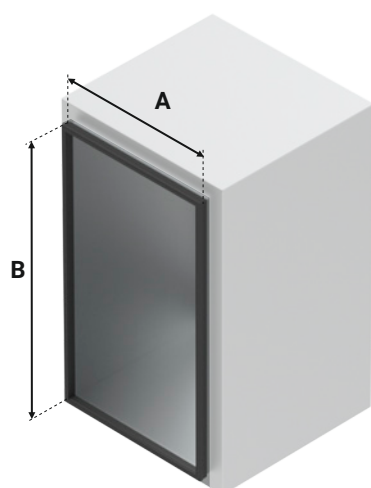

Injection molding [M]

- durable joining method
- bonding of two different sections by injection moulding
- high degree of joint tightness

Sealing profiles

Ready-made frame, o-ring

Bonding technologies for sealing profiles - Frame

[G]	[V]	[M]
Glueing	Film vulcanization	Injection molding

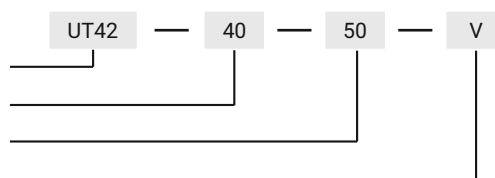

How to order:

Gasket type

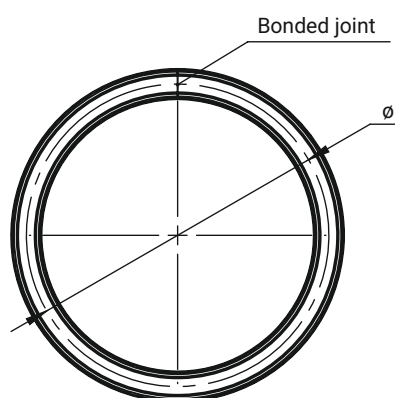

Width [A]

Length [B]

Bonding technology [G, V, M]

Select the type of gasket according to the catalogue of products from pages 6-1 to 6-23

Bonding technologies for sealing profiles o-ring

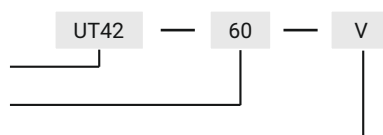

[G]	[V]	[M]
Glueing	Film vulcanization	Injection molding

How to order:

Gasket type

O-ring diameter [Ø]

Bonding technology [G, V, M]

Select the type of gasket according to the catalogue of products from pages 6-1 to 6-23
